

Bijlage 18. Overlap tussen inclusies reviews van Barnett (2016) en Smith (2016)

Indien een studie niet werd geïncludeerd, werd opgezocht of deze in de exclusietabel van de review stond opgenomen. Als deze studie in de exclusietabel stond, werd de exclusiereden genoteerd.

Auteur	Barnett (2016)	Smith (2016)
Barnett (2016) overlap met Smith (2016)		
Alkema 2007		Not in the Cochrane exclusion table, participants were older adults with high-healthcare utilization (using an algorithm with hospitalizations, ED visits, nr of medications and age>85 years)
Beck 1997		Participants not defined as having multimorbidity as per review protocol (one or more chronic conditions)
Berglund 2015		Not in the Cochrane exclusion table, outside search restriction (until 2014) assessment at emergency department, coordinated from hospital (according to NICE)
Bouman 2008		Not in the Cochrane exclusion table, community based home visit program with trained home nurses
Courtney 2009		Not in the Cochrane exclusion table, nurse visit within 72 hours of admission
Eklund 2013		Participants not defined as having multimorbidity as per review protocol (older people who visited the ED department and where discharged to their own home)
Eli 2013		Not in the Cochrane exclusion table, community based problem solving therapy/antidepressant medication for comorbid depression and diabetes
Hogg 2009		
Metzelthin 2013		Not in the Cochrane exclusion table, community based multidimensional home assessment for older adults aged 70 or older, nr of participants with multimorbidity not reported
Naylor 2004		Not in the Cochrane exclusion table, inpatients offered planned discharge intervention with physicians and nurses, from hospital admission through 3 months after discharge, multimorbidity not specifically reported (but mean nr of conditions 6.4)
Sandberg 2015		Not in the Cochrane exclusion table, outside search restriction (until 2014), community based case managers intervention
Slaets 1997		Not in the Cochrane exclusion table, inpatient intervention with multidisciplinary joint treatment, multimorbidity not reported
Sommers 2000		
Boult 2008		Samengevoegd met Boult 2011
Behm 2014		Not in the Cochrane exclusion table, year search restriction until 2014, multimorbidity not reported, older adults aged 80 or over, single home visit with education
Chow 2014		Specialist in-patient setting for first stage of intervention delivery
Coburn 2012		Participants not defined as having multimorbidity as per review protocol (one or more eligible chronic conditions)
Gitlin 2006		Samengevoegd met Gitlin 2009
Katon 2010		(von Korff 2012 geëxcludeerd in Smith, maar in NICE bij Katon gezet)

Legrain 2011		Not in the Cochrane exclusion table, inpatients, intervention by geriatricians aimed at transition of care at discharge. Nr of participants with multimorbidity not reported
Resterende artikelen Smith (2016) overlap met Barnett (2016)		
Barley 2014	Not in NICE exclusion table, nurse-delivered personalized care intervention for people with coronary heart disease who report current chest pain and depression: should have possibly been included in NICE.	
Eakin 2007	Incorrect interventions. Intervention: self-management. Included in NICE chapter self-management	
Garvey 2015	Incorrect interventions, no specification by NICE. Intervention: occupational-led self-management programme. Included in NICE chapter self-management	
Hochhalter 2010	Incorrect interventions. Interventions: self-management (included in NICE chapter on self-management)	
Kennedy 2013	2007 geëxcludeerd, Self-management and Expert Patient Programme review. Intervention: self-management (lay-led support)	
Krska 2001	Incorrect interventions. Intervention: medication review	
Lorig 1999	Incorrect interventions. Intervention: self-management. Included in NICE chapter self-management	
Lynch 2014	Not in NICE exclusion table, self-management intervention for African Americans with comorbiddiabetes and hypertension: a pilot randomized controlled trial.Preventing Chronic Disease 2014;11:E90. Intervention: self-management	
Martin 2013	Not in NICE exclusion table, Co-morbid recurrent headaches and major depressivedisorder: An RCT of cognitive behavior therapy. Intervention supposedly too specific.	
Sommers 2000	Not in NICE exclusion table, Physician, nurse and social worker collaboration in primarycare for chronically ill seniors. Outside of year-restrictions (2011-2016)	
Wakefield 2012	Not in NICE exclusion table, Outcomes of a home telehealth intervention forpatients with diabetes and hypertension. Supposedly no relevant outcomes reported.
